**Guardsman® Information**

The Guardsman, unlike most watchlocks, provides an uninterrupted record of a watchman's activities for up to 120 hours. For your company, its extended time-keeping capacity translates into total control and accountability for weekends, holidays and plant closings, as well as routine overnight patrols. The advancement of the tape is synchronized with the clock mechanism so that consecutive station registrations appear as an unbroken band of numbers; missed stations appear as conspicuous gaps. The Guardsman boasts rugged construction, including a die-cast aluminum housing, heat-treated crystal, and a riveted and reinforced case of harness leather.

**Features**

- Uninterrupted time-keeping for up to 120 hours
- Embossed record made directly from raised numerals on the recording keys without ribbon, carbons, or inking devices.
- Highly accurate eight-day shock resistant movement with 11-jewel escapement.
- Will accommodate up to 40 stations.
- Tampering detector indicates if clock has been opened or closed.
- Requires winding only once per week.
- Tapes are virtually impossible to counterfeit.
- Underwriters Laboratories listed and Factory Mutual approved.
